# AEROFLEX<sup>®</sup> CONTINUOUS TUBE

Aeroflex Continuous Tube is especially designed for copper tubes used in split-type air-conditioning. It can be applied on the long and continuous copper tubes. Moreover, Aeroflex Continuous Tube made of the same material as Aeroflex tube. Installation is easy and saves cost without cuts and joints. It still maintains high quality standard of EPDM advantages.

- Closed cell structure.
- Low thermal conductivity.
- Low water absorption and low vapor permeability.
- Low smoke and toxic gases.
- Excellent UV and weather resistance.
- Non-corrosive on copper and stainless pipes.
- Non-polar.
- Powder applied from factory.

## Many sizes are available to fit the copper pipes

Inner diameter		6.5 mm Wall		9 mm Wall		13 mm Wall
